Vision

Strong families, Strong Communities, Living well longer

Mission

Transforming the health and well-being of Pacific and high-needs communities

Our Strategic Plan...

is our roadmap over the next three years. We believe that all people and their families should have equitable access to quality healthcare, so that we all have strong families, strong communities, living well longer. We are committed to our communities, and with the adoption of this strategic plan have embarked on a bold journey in furthering our vision and mission to create significant impact on the health and well-being of the population we serve.

Values

+ Compassion  + Courage  + Honesty  + Respect  + Service

Strategic Goals

Goal 1: Engage our communities to enhance health and wellbeing
- Create a continuum of care through the Alliance Group
- Support system development and integration
- Increase community engagement and empowerment

Goal 2: Increase Health Equity for Pacific and high needs communities
- Increase access and engagement with health services for populations experiencing health inequities
- Build awareness of Alliance Group services in target populations
- Outcomes improvement in Pacific Provider Development
- Enhance and develop services to AH+ Practices

Goal 3: Optimise the performance of the AH+ Practice Network
- Enhance and develop services to AH+ Practices
- Develop and grow the AH+ Practice Network
- Support and maintain quality systems and process management systems

Goal 4: Lead the 'Future of Health' through innovation and technology
- Improve the use of new technology
- Develop the wider health workforce, and the Pacific health workforce
- Demonstrate Healthcare Innovation
- Be a Centre of Excellence for Pacific Health
- Leadership of local and regional collaborations
- Develop non-Government partnerships and ventures

These four strategic goals are supported by key success enablers - AH+ workforce capacity and capability, quality improvement, technology, governance, financial, and health & safety/risk management.
